Hi there! I'm a freelance 2D motion designer and illustrator

I'm specialized in vector graphics, being a pixel perfect perfectionist and a pen tool obsessed always looking for fresh ways to tell stories through motion design in After Effects.

I love expressing ideas through animated basic shapes and playing with low frame rates and subtle textures to get some traditional mixed media feel.

Vector based
2D motion design

Bitmap and
collage style
2D motion design

Present day - 2020 • Freelancing as Motion Designer
and Illustrator
